Thubron finds the heart of Asia in the hearts of its people, swimming in a sea of tea, vodka, and hospitality. From the oldest-known Quran to a deserted Soviet naval base on the shores of a high mountain lake 1,500 miles from the ocean (used to test torpedoes far from spying eyes), Thubron's writing echoes the melancholy emptiness of the wide spaces he passes through.

Shadow of the Silk Road records a journey along the greatest land route on earth. Out of the heart of China into the mountains of Central Asia, across northern Afghanistan and the plains of Iran and into Kurdish Turkey, Colin Thubron covers some seven thousand miles in eight months. Making his way by local bus, truck, car, donkey cart and camel, he travels from the tomb of the Yellow Emperor, the mythic progenitor of the Chinese people, to the ancient port of Antioch in perhaps the most difficult and ambitious journey he has undertaken in forty years of travel. The Silk Road is a huge network of arteries splitting and converging across the breadth of Asia. To travel it is to trace the passage not only of trade and armies but also of ideas, religions and inventions. But alongside this rich and astonishing past, Shadow of the Silk Road is also about Asia today: a continent of upheaval. One of the trademarks of Colin Thubron's travel writing is the beauty of his prose; another is his gift for talking to people and getting them to talk to him. Shadow of the Silk Road encounters Islamic countries in many forms. It is about changes in China, transformed since the Cultural Revolution. It is about false nationalisms and the world's discontented margins, where the true boundaries are not political borders but the frontiers of tribe, ethnicity, language and religion. It is a magnificent and important account of an ancient world in modern ferment.

"A gripping read with fascinating political insight." (Sunday Times, London) "Elegant, elegiac and poignant...Thubron is an intrepid traveler, a shrewd observer and a lyrical guide... to the river, much of it along the border between these two powers at a time of rapid and tense reconfiguration of global geopolitics." (Washington Post) The most admired travel writer of our time!author of Shadow of the Silk Road and To a Mountain in Tibet!recounts an eye-opening, often perilous journey along a little known Far East Asian river that for over a thousand miles forms the highly contested border between Russia and China. The Amur River is almost unknown. Yet it is the tenth longest river in the world, rising in the Mongolian mountains and flowing through Siberia to the Pacific. For 1,100 miles it forms the tense border between Russia and China. Simmering with the memory of land-grabs and unequal treaties, this is the most densely fortified frontier on earth. In his eightieth year, Colin Thubron takes a dramatic journey from the Amur's secret source to its giant mouth, covering almost 3,000 miles. Harassed by injury and by arrest from the local police, he makes his way along both the Russian and Chinese shores, starting out by Mongolian horse, then hitchhiking, sailing on poacher's sloops or travelling the Trans-Siberian Express. Having revived his Russian and Mandarin, he talks to everyone he meets, from Chinese traders to Russian fishermen, from monks to indigenous peoples. By the time he reaches the river's desolate end, where Russia's nineteenth-century imperial dream petered out, a whole, pivotal world has come alive. The Amur River is a shining masterpiece by the acknowledged laureate of travel writing, an urgent lesson in history and the culmination of an astonishing career.

As mysterious as its beautiful, as forbidding as it is populated with warm-hearted people, Syberia is a land few Westerners know, and even fewer will ever visit. Traveling alone, by train, boat, car, and on foot, Colin Thubron traversed this vast territory, talking to everyone he encountered about the state of the beauty, whose natural resources have been savagely exploited for decades; a terrain tainted by nuclear waste but filled with citizens who both welcomed him and fed him despite their own tragic poverty. From Mongolia to the Artic Circle, from Rasputin's village in the west through tundra, taiga, mountains, lakes, rivers, and finally to a derelict Jewish community in the country's far eastern reaches, Colin Thubron penetrates a little-understood part of the world in a way that no writer ever has.

Far away from the city of his birth, in a frontier town on the edge of tribal wilderness, a doctor tries to resolve the seemingly unreconcilable demands of his public career and his personal feelings. He believes his exile her to be temporary, and youthful memories of the distant city torment him with an unbearable sense of loss. Yet he has grown to love a fellow exile, a woman of fierce independence and strong will, who belongs by nature to the warmth and chaos of the frontier? But, during a summer of drought and disease, the desert erupts into savagery and he is at last confronted by the choice of returning to the city or of remaining with her.

Bernard Ollivier pushes onward in his attempt to become the first person to walk the entire length of the Great Silk Road. A gripping account. More than just a travel story it is a quest for the Other. Alexis Liebaert, L'Événement Picking up where Walking to Samarkand left off, Winds of the Steppe continues the astonishing tale of journalist Bernard Ollivier's 7,200-mile walk from Turkey to China along the Silk Road, the longest and most mythical trade route of all time. Taking readers from the snows of the Pamir Mountains to the backstreets of Kashgaria Central Asian city that could be the setting for One Thousand and One Nights to the Tian Shan Mountains to the endless Taklamakan and Gobi Deserts of China's Xinjiang Uyghur Autonomous Region, Bernard Ollivier continues his epic foot journey along the Great Silk Road hoping to make his way to Han China and reach, at long last, the legendary city of Xi'an. After traveling through a region dotted with former Buddhist shrines, Ollivier finds himself craving the warm welcome of Islamic lands, where, regardless of their culture or nationality, travelers are often treated as esteemed guests. Beyond the occasional vestige of the old Silk Road, Ollivier comes face to face with sites of religious significance, China's Great Wall, and of course thousands of everyday people along the way. As Ollivier tries to make sense of his journey and find connections between these people's daily lives and the so-called modern world, he does so with a sense of humility that transforms his personal journey into a universal quest.

The Ferghana Valley can reasonably be said to lie in the heart of Central Asia. As such, the Valley has made an inordinate contribution to the history and culture of the region as a whole, as well as significantly affecting the economic, political and religious spheres. This book looks at the region over time, from its early history to the present. It embraces not just the obvious fields of politics, economics and religion, but also ethnography, sociology and culture, and includes the insights of leading scholars from all three Ferghana countries. The book discusses various questions of identity relating to the region, showing how the identity of the Ferghana Valley relates to the emerging national identities of the three post-colonial states that are still gradually emerging from the demise of the Soviet Union, as well as how an understanding of the Ferghana Valley is key to understanding Central Asia itself.

A journalist visits one of the most dangerous and troubled regions on Earth--the Caucasus--to piece together the bloody conflicts that have torn this beautiful land apart since the dissolution of the Soviet Union. Reprint. 12,500 first printing.
