Following in the tracks of the author's well-known Alfa DOHC tuning manual, Jim Kartalamakis describes all kinds of useful information and techniques to increase power, performance and reliability of V6 Alfas and their engines. This book is the result of much research and firsthand experience gained through many projects concerning Alfa V6 rear-wheel drive models, from the GTV6 series to the last of the 75 3.0 models. A wealth of completely new information can be found here regarding cylinder head mods, big brake mods, LSD adjustment procedure, suspension modifications for road and track, electrical system improvements, flowbench diagrams, dyno plots, and much more!

Marketing Manipulation deals with the tactics and strategies used by marketers that prey on human cognitive, social and memory based biases ultimately influencing consumer behavior in their favor. Kamins focuses on examples from academic research where consumers have been found to be susceptible to bias and therefore have made less than optimal purchase decisions. Particularly, academic research in the area of Pricing, Product, Promotion, Sales and marketing research. Written in an accessible manner, this book puts the consumer (you!) in the center and aims to help making all of us a better decision maker when confronted with a range of stimuli in a marketing environment.

Includes a tenth anniversary issue, dated Nov. 1945.
