Preparing for the sub stage: Sub stages are the regular viva voce that are held once every two weeks or so. The class is divided into 10-15 student batches, and each batch gives their viva voce to a certain examiner. Sub stages are lesser course, more tension. So the best way of preparing for them is to do them along with the lectures.

The book presents the basics of Pedodontics through a series of carefully graded multiple choice questions (MCQs). It includes a large variety of questions which feature single best response , multiple true/false , test of reasoning and matching the column types. Answers to all questions have been provided. Explanations of most correct answers as well as of the other options are also provided. The questions have been formulated in a manner that they provide not only a suitable revision drill to undergraduate students, but also prepare them thoroughly for their PG entrance tests. About the Author : - Dr M.S. Muthu, MDS is currently Asst. Prof. Dept. of Pediatric Dentistry, Meenakshiammal Dental College, Chennai.

This manual provides step-by-step pictures and illustrations of the various laboratory exercises, which students have to learn and perform in their first and second year BDS course for the preclinical conservative dentistry examination. This is the only book of its kind that would serve as a guide for learning as well as practicing the exercises on both plaster and typodont models in the preclinical laboratory. Segregated into 11 well defined chapters, the book: Provides synopsis of topics related to conservative dentistry and
