WINNER OF THE NOBEL PRIZE® IN LITERATURE 2013 In this series of interweaving stories, Munro recreates the evolving bond between two women in the course of almost forty years. One is Flo, practical, suspicious of other people's airs, at times dismayingly vulgar. The other is Rose, Flo's stepdaughter, a clumsy, shy girl who somehow leaves the small town she grew up in to achieve her own equivocal success in the larger world.

Find out what makes you tick in this stylish book of 20 illustrated psychological tests based on key psychology methods.

Explore the ways that your past has affected the person you've grown into in this fully illustrated journal. You are who you are today because of a million tiny moments. It's hard to say which moments are responsible for your tendency to cancel plans, what initiated a weird habit, or why your go-to comfort food as a kid was a ketchup-and-mustard sandwich, but sometimes you only need to spend a little time reflecting in order to unearth these connections between past and present. In this illustrated journal, artist Siobhan Gallagher will jog your memory and encourage self-reflection with fun and engaging prompts, such as: • What is something (or someone) you can't believe you ever liked? • In the museum of your life, what moment was so important that it would need to be represented by a life-sized diorama? • If you could bottle up your childhood, what would it smell like? (Chocolate-scented markers? Grandma's house?) • Draw and label all the things you've lost that you wish you'd found. With plenty of room to write and reflect, Who Do You Think You Are? will help you examine your past to understand the unique and fascinating timeline that made you into the person you are today.

The companion how-to guide to the hit TV series—with advice for anyone starting their own genealogical search. In the groundbreaking NBC series Who Do You Think You Are? seven celebrities—Sarah Jessica Parker, Emmitt Smith, Lisa Kudrow, Matthew Broderick, Brooke Shields, Susan Sarandon, and Spike Lee—went on an emotional journey to trace their family history and discover who they really are, and millions of viewers caught the genealogy bug. With the official companion guide, anyone can learn how to chart their family's unique path. Featuring step-by-step instructions from Megan Smolensky, one of America's top genealogical researchers, this book offers everything readers need to know to start the journey into their past, from digging through old photos, to finding the best online resources.

This unique book helps us identify what motivates us and how we can use that to our advantage. Stuck in a rut and don't know why? Perhaps you are not choosing the job or lifestyle which satisfies the things you love doing and are good at, or your 'motivated ability'. Who Do You Think You Are? is based on the System for Identifying Motivated Abilities (SIMA), widely used by major companies throughout the world to help them and their staff get the best from each other. This unique self assessment system can also help you -Make informed decisions about your future -Discover the job that's best for you -Discover what you're cut out for -Plan your life goals -Avoid burn-out, boredom and depression. This book will help you learn how to be the best you can be!

This personal portrait of a mother and daughter explores the profound and poignant revelations that so often can come to light only after a parent has died.

WHO ARE YOU? WHAT DEFINES YOU? WHAT IS YOUR IDENTITY? How you answer those questions affects every aspect of your life: personal, public, and spiritual. So it's vital to get the answer right. Pastor and best-selling author Mark Driscoll believes false identity is at the heart of many struggles—and that you can overcome them by having your true identity in Christ. In Who Do You Think You Are?, Driscoll explores the question, "What does it mean to be 'in Christ'?" In the process he dissects the false-identity epidemic and, more important, provides the only solution—Jesus. "This book will give you an unshakeable, biblical understanding of who you are in Christ. When you know who you are, you'll know what to do." —Craig Groeschel, Senior Pastor of LifeChurch.tv and author of Soul Detox, Clean Living in a Contaminated World "I spent years in ministry for Christ without understanding my identity in Christ. I know now that I was not alone. When, by the grace of God, we understand who we are in Christ, everything else can crumble and we will still be standing. I highly commend this

book to you.” —Sheila Walsh, speaker and author of *God Loves Broken People*

Explore the gray areas in your gray matter with philosophical brainteasers from armchair philosopher and bestselling author of *The Pig That Wants to Be Eaten*, Julian Baggini. Is your brain ready for a thorough philosophical health check? Julian Baggini, the author of the international bestseller *The Pig That Wants to Be Eaten*, and his fellow founding editor of *The Philosopher's Magazine* Jeremy Stangroom have some thought-provoking questions about your thinking: Is what you believe coherent and consistent, or a jumble of contradictions? If you could design a God, what would He, She, or It be like? And how will you fare on the tricky terrain of ethics when your taboos are under the spotlight? *Do You Think What You Think You Think* features a dozen philosophical quizzes guaranteed to make armchair philosophers uncomfortably shift in their seats. Fun, challenging, and surprising, this book will enable you to discover the you you never knew you were.

'Gets right to the heart of what makes us what we are. Read it!' Angela Saini, author of *Inferior and Superior: The Return of Race Science*  
The popular science equivalent of *Who Do You Think You Are?* Popular science master Brian Clegg's new book is an entertaining tour through the science of what makes you you. From the atomic level, through life and energy to genetics and personality, it explores how the billions of particles which make up you – your DNA, your skin, your memories – have come to be. It starts with the present-day reader and follows a number of trails to discover their origins: how the atoms in your body were created and how they got to you in space and time, the sources of things you consume, how the living cells of your body developed, where your massive brain and consciousness originated, how human beings evolved and, ultimately, what your personal genetic history reveals.
