In *Twenty Affordable Sailboats to Take You Anywhere* you will find in-depth reviews of twenty affordable, comfortable, and seaworthy sailboats. These boats range in size from 30-38 feet, an ideal size for the cruising couple, yet big enough to accommodate an occasional cruising hitchhiker or two. All of these boats were once prominent offerings, designed by some of the world's leading naval architects and produced by reputable manufacturers. These boats are still readily available in the used boat market."Gregg has done a fine research job here, one pleasingly devoid of flim-flam. the murky waters of boat-buying."John Vigor, Author, Twenty Small Sailboats to Take You Anywhere" This book is a must for the boat shopper looking for an experienced vessel."Bob Bitchin - Founder/Editor, Latitudes and Attitudes

John Vigor turns the spotlight on twenty seaworthy sailboats that are at home on the ocean in all weather. These are old fiberglass boats, mostly of traditional design and strong construction. book. He compares the designs and handling characteristics of 20 different boats whose secondhand market prices start at about \$3,000. Interviews with experienced owners (featuring valuable tips about handling each boat in heavy weather) are interspersed with line drawings of hulls, sail plans, and accommodations. Vigor has unearthed the known weaknesses of each boat and explains how to deal with them. He rates their comparative seaworthiness, their speed, and the number of people they can carry in comfort. If you have ever dreamed the dream this book can help you turn it into reality.
